

BREGNO SUCTION CUP

Durable polished aluminum suction cups in single, double, and triple drum options—perfect for securely lifting and handling stone and tile.

BREGNO SUCTION CUP

Durable polished aluminum suction cups in single, double, and triple drum options—perfect for securely lifting and handling stone and tile.

Suction Cup Polished Aluminium Suction Cups are designed for safely lifting and handling smooth, non-porous surfaces such as glass, tiles, metal sheets, and polished stone. Available in single, double, and triple drum variants, they offer varying levels of grip strength and stability depending on the load. Each suction cup features a 110mm diameter for strong adhesion and secure handling. The polished aluminum casing ensures durability, while the ergonomic handles provide a comfortable and firm grip. Ideal for both professional and DIY use, these suction cups make material handling safer, easier, and more efficient.

ADVANTAGES

-  110mm suction diameter ensures firm hold on smooth surfaces.
-  Aluminium body offers long-lasting performance and resistance to wear.
-  Available in single, double, and triple drum for different load capacities.
-  Reduces the risk of damage or injury while lifting glass, tiles, or metal.
-  Ergonomic design provides a secure and comfortable grip during use.

USAGE

- Large-format tiles
- Wall and floor tiles
- Marble
- Granite
