BREGNO CORE BITS & DRILL BITS

Ensure perfect tile alignment and spacing with 1mm to 10mm plastic tile spacers for faster, slip-free installation.

Precision-Engineered for High-Performance Drilling Our Core Drill Bits are designed to deliver clean, accurate holes in a wide range of materials, including stones, tiles, quartzite, concrete, reinforced concrete, masonry, and asphalt. Built with industrial-grade segments and durable steel barrels, these bits ensure long life, reduced vibration, and efficient cutting.

ADVANTAGES

-  Premium Diamond Segments: For fast, efficient cutting and extended bit life.
-  Heavy-Duty Steel Core: Ensures maximum stability and reduced runout.
-  Wet or Dry Use: Select models designed for both wet and dry coring applications.
-  Segment Options: Turbo, segmented, or continuous rim for different cutting needs.

AVAILABLE SIZES

- 1" to 14" diameter (custom sizes available upon request)
